For the attention of Mr G I Hopley

Dear Mr Hopley

SETTLE MIDDLE SCHOOL – FOOD & FABRIC ROOM CONVERSION – LETTER OF COMMENDATION

Your company recently undertook and completed a construction project comprising the adaptation of an existing Food & Fabric Room to a General Teaching Classroom and the conversion of a Temporary Classroom Unit to a new Food & Fabric Room at Settle Middle School from Monday 24th September to Friday 26th October 2001.

Practical Completion and successful handover to the School was achieved on Monday 29th October 2001.

The Headteacher, Mr James Mansley, and his staff were notably delighted with the quality of the finished work. They were also particularly pleased that the project was completed on time and within the contract price, prior to a very important school inspection.

The North Yorkshire County Council Project Officer and the Electrical and Mechanical Design Engineers were also highly impressed with your company's standard of work, the co-operative manner in which you and your sub-contractors approached and overcame problems as and when they were encountered and the cheerful way in which you undertook additional associated works at the request of the Headteacher in order to enhance the quality and safety of the surrounding school environment.

The staff of Building Design and Management commend your professionalism and look forward to working with you again in the near future.

Yours sincerely

HEAD OF BUILDING DESIGN AND MANAGEMENT
