Dear Steven,

Just a line to let you know that we appreciate all the effort and hard work you and your employees have put into our special needs accommodation project. It's been a long haul and to have builders on site for a long length of time (years) is usually a test for anyone, however, I must say that your staff have been fantastic throughout and it was a pleasure to have them here, from the joiners Scott and John to the one man demolition crew Dale!!!...There's too many to mention as you know and I won't attempt it but I would have to say a special thanks to Mick whose presence here was a pleasure and whose work was excellent. He is an asset to your company and a great person to know.

Thank you Steven for helping us bring a dream to reality and making the transposition as stress free as you all could.

Thank you very much also for contributing to our summer scheme for the kids.

Yours Truly

Mark Hughes Centre Manager
